GROW YOUR BUSINESS WITH SLOVENIAN COMPANIES

Distinguished reader,

Expo 2020 Dubai in UAE is a celebration of knowledge and cooperation, two indestructible guarantors of fair development and the lucrative idea about better future for all. In this respect Slovenia's decision to present itself with its own pavilion, with a very rich and attractive program for visitors makes a lot of sense. This world event offers Slovenia an excellent opportunity to prove once again where it belongs: among the most progressive and responsible countries in the world!

Agriculture is an economic activity of particular importance to Slovene society, mainly due to its multifunctional role. The primary task of our agriculture in connection with the food industry is the production of safe and quality food. Food security, including the stable production of safe and easily accessible high-quality food, is one of Slovenia's strategic development goals in agriculture. Our food production policy is directed towards the same goal - to expedite the supply of and demand for quality and healthy food, produced locally and in a sustainable manner, to improve the supply to the public and to increase the level of food self-sufficiency.

Slovenia is distinguished by a rich culinary diversity and strong food processing industry. Exceptional local production, top-quality products, a lot of know-how,

modern technology, and strict oversight are our key advantages. Consumers are increasingly looking for quality food of Slovenian origin. Our vision is that the food Slovenia offers will place us among the globally recognisable gourmet destinations. In accordance with the natural characteristics of Slovenia, we will encourage greater visibility and consumption of Slovenian goods in households, restaurants, and especially touristic and public institutions.

Above mentioned are just a few reasons why choosing Slovenia could be the best decision if you are looking for a reliable business partner or just a place to set up your business. We at SPIRIT Slovenia work as a single point of contact for international businesses and we are here to help you to make this happen!

It is a genuine honour and privilege to present top Slovenian companies from food industry at the Slovenian pavilion, many of them are already world known.

Join us, it will be an experience worth your time!

Tomaž Kostanjevec, PhD, Director
SPIRIT Slovenia Business Development Agency

CORE BUSINESS

Dairy Krepko is a producer of traditional kefir and other ecological dairy products.

ABOUT THE COMPANY

Krepko Dairy, a family-owned Slovenian company has committed to the traditional production of kefir – it is the only specialised dairy in EU to produce original kefir.

The Krepko Dairy is highly specialised in mass production of traditional kefir from real kefir grains. For more than 25 years, Mlekarna Krepko has been using only true kefir grains sourced from the Caucasus Mountains, the homeland of kefir.

In 2007, Dairy Krepko implemented family's ecological vision and way of life into family business and became the first organic dairy in Slovenia.

MAIN ACTIVITIES / PRODUCTS / SERVICES

- We are highly specialised in mass production of traditional kefir from real kefir grains.
- Production of other ecological dairy products
- We also produce private labels of traditional kefir for international trade partners

KREPKO DAIRY, Kele & Kele d.o.o.

Laze 22a, 1370 Logatec, Slovenia

Vivo catering

CORE BUSINESS

Our main services are innovative and creative event catering solutions in Slovenia and abroad with the highest level of standard for F&B services.

ABOUT THE COMPANY

Vivo d.o.o. is a Slovenian company that focuses on catering solutions with a high standard and quality of services in the meetings industry. Founder Jerneja Kamnikar founded Vivo catering in 1993 in response to the lack of catering companies in the south-eastern part of Europe. With catering culinary stories, they take care of the promotion of Slovenia both at home and abroad. They have managed to become a brand with a compelling identity capital. In Slovenia, Vivo has helped shape the meetings industry, together with various associations. In 2021, Vivo is official selected catering for the receptions at the highest level of Slovenia's presidency of the European Community. Together with partners Vivo helped create events for promotion of Slovenia. Vivo has taken care of a large number of distinguished international guests like The Queen of England, Queen Elisabeth II., former president of USA Bill Clinton and many others. Vivo delivers its catering services to other parts of Europe, such as Croatia, Belgium, Italy, Great Britain, Germany,... Vivo catering was among the first in Slovenia, with organic certificate and certificate for the preparation of traditional dishes such as; Bela krajina pogača and Slovenska potica.

- Catering service for guests of a cruise and Amazing events for 1.000 people at port Koper & Trieste.

”

Slovenians are aware, that our beautiful county is distinguished by a rich culinary diversity and significant effort was put into raising such awareness also among tourists spending holidays on the sunny side of the Alps.

This richness is preserved by family and cultural traditions. In the time of haste, stress and lack of time, the Slovenian food processing industry plays an important role in preserving family habits and customs.

The Slovenian food processing industry is active also outside the country's borders. It boasts a high level of export activity - over a quarter of sales revenue is generated outside Slovenia. This confirms that Slovenian food products are not bought only because of a consumers' sentimentality, but also because consumers recognize the quality and the taste of our products.

All our activities are aimed at the satisfaction and, particularly, the health of our consumers. We strive to make our products with high-quality ingredients provided by the diverse Slovenian landscapes, and

it is not surprising that food processing factories are equally distributed around the country. This supports the preservation and development of Slovenian rural areas and the decentralization of employment. Several thousand people are thus directly connected with the food industry.

We hope and strive to bring our products on daily and holiday tables around the world. One of our important directions is also strengthening the cooperation with the Arab market.

We are inviting you to discover our products from the green oasis of Europe.

Janez Rebec, M. Sc. President
CCIS - Chamber of Agricultural and Food Companies

”

CORE BUSINESS

Production of natural fruit and vegetable juices

ABOUT THE COMPANY

A family-owned company specialized on production of directly pressed natural juices which are made from hand-picked, fresh fruit that has grown on the trees in carefully cultivated orchards. Most of fruit is of local origin or from the near region, where sunny Mediterranean climate gives it unique flavor.

The selected fruits are processed to preserve as many natural components as possible without artificial colors, flavors, or any additives.

Enjoy Smodin Juice, feel nature.

MAIN ACTIVITIES / PRODUCTS / SERVICES

- Production of fruit and vegetable juices.
- Contract filling and packaging
- New products development

WINERY

Zajc

Since 1858

CORE BUSINESS

Wine making

ABOUT THE COMPANY

Zajc is a story of *joie de vivre*. Zajc wines are different, sociable and unique. They are confident and never jealous.

The family's continuous tradition of wine-making started in 1858 when they acquired their oldest vineyard in Cirknik close to Mokrice.

The grapes are treated nature-friendly and picked only manually on all six locations with almost 70.000 vines grow.

Zajc winery is the only producer of organically grown local wine »Cviček«.

MAIN ACTIVITIES / PRODUCTS / SERVICES

- Red, white, rose and sparkling wines from local grapes,
- Wines with protected designation of origin,
- Organic wines,
- Low alcohol wines.

VALUE PROPOSITION / OFFERING

The taste and natural healthy grape are crucial for making good natural wine and be successful in it since 1858.
